of Tsingtao Experts, After Study, Affirm That Proposals of Three Nations Prove Irreconcilable

> GENEVA (Switzerland) June 21. (AP)-Never will the United States be forced into building small-size cruisers unsuitable for the needs of her national defense—that, it is undertood, is the answer which the American delegates will make to the British proposal at the tripartite naval conference for the eventual abolition of the 10,000-ton cruisers authorized by

the Washington parleys. The close of the second day of the conference has permitted the experts to reaffirm their earlier judgment that the three plans presented—the American, British and Japanese—are so divergent as to be utterly irreconcilable and are certain to make a treatty furpossible, unless seconds as

cilable and are certain to make a treaty impossible unless someone recedes from his original position.

Admiral Salto, however, in a statement to the Associated Fress ionight, in which he explained the purport of the Japanese proposals, threw an enditively new light on some of Tokio's intentions and justified the belief of the American delegation that an agreement will be more possible on a basis of the Japanese plan than the British. Saito made it clear that in America's future cruiser-building program she could, under the Japanese project, strap some of the numerous destroyers and put the tomage thus saved into cruisers.

and Levine flew to Germany, announced today that he had signed a contract with A. R. Martine of the Bankers' Service Company of No. 1 Wall street, calling for the construction of five large triple-motored airplanes to be used in a passenger line between here and Chicago, the line to open for business within four months.

Mr. Martine said be has already turned over to the designer a portion of the cost of the planes. He said he is financing the company himself, with the aid of some associates, whom he declined to name. No outside capital will be sought and mr stocks sold, "at any rate, not until the venture is a proved success and we sant to expand."

Mr. Bellanca's connection with the new project is purely as manufacturer.

new project is purely as manufacturer.

He will take no part in running the line, he said. The designer said that the planes will accommodate twelve passengers each, vilowing 160 pounds per passenger and twenty-five pounds for baggage. The crew will consist of two men, the pilot-navigator, and a steward, who will serve meals and operate the radio.

The ships will carry 200 gallons of gasoline as a maximum fuel load, will have a cruising speed of about 100 miles an hour, will be able to stay in the air with much less than their full motor power, and are expected to make the New York-Chicago flight in seven and one-half hours. Mr. Martine said that as soon as the first route is established another will be opened between New York and Miami, the nying time being ten hours.

The contract price of the planes, Mr. Martine said, was \$28.500 each. He indicated that he expects to put many more in operation after the first five will have been constructed.

SACRAMENTO, June 21. (P)—The final history of the 1927 Legislature, an 896-page document, is just off the press and ready for distribution, Charles A. Whitmore, State Printer, announced today. The book was issued seventeen days after the close of the bill-signing period and fifty-two days after adjournment of the Legislature. The 1925 final history contained 772 pages.

Bound copies printed on book paper are being sent to every library in the State for their permanent records. In some cases where applications are for personal study only, the applicants will be referred to the libraries for use of the documents. In this way, it is pointed out, the cost of distributing the book can be reduced as it will not be necessary to print so many copies.

"In his eastern debut Leo shaped up as a first-class light-heavy. There was nothing sensational about him. Ferhaps he suffered from his advance bally-hoo, for many of us had been led to believe he was a bearcat, a second Ketchel, a larger edition of Ace Hudkins.
"Whatever bouquets are to be handed out should be given to Mays. Harold is a youngster. He fought like a veteran. He is coming with every fight."

Faul Jones and Jimmy Londos are the headliners in a little mat dispute at the Olympic tonight that was started nine months ago, when Jones, then a comparative newcomer in our midst, first tried conclusions with the handsome Hellenie grappling artist.

Jimmy won, but since then "rex" Jones has gradually worked himself into a position where he is probably just as popular with local mat fans as the dark-locked Jimmy. "Tex" may lose again tonight, but he is an improved gladiator over nine months ago and it's a cinch he's a darned sight more popular.

It was either just Johnny Parrell's day or golf's best-dressed
kid has improved over the same
period a year ago. At any rate
Johnny yesterday won the Shawnee championship with a total of
279 strokes, whereas over the
same course in 1926 he required
289 strokes.

This is one of the biggest puzsles of golf—the fact that a guy
can be so good one day and ten
strokes worse or more some other
day. Bobby Jones, a riot in the
national open last year, was just
one of the also-rans this year.

busted to second by Tem Holley, the youngster who is piaying a neat game at third for the Shelks. Denny Murphy came through with a fit to left and Heath romped home under Jahn's throw, which even cleared Hannah's head on its nonstop fight to the stands. Murphy took second on the throw-in. Shelienback ans safe at first and Murphy at third on Brazill's error. Lee was out on a called third strike, bit Johnny Kerr cracked one of Hamilton's slow ones down the left field line for two bases, Murphy storing and Shelly puiling up at third. Gale Staley stopped he rooring by knocking down Twombiry's hard-hit grounder and tossing Babe out at first.

Hannah and Hamilton retired for pinch hitters in the seventh, so Bruce Counningham and Gius Bandberg wound up as the Angel bartery in the last two innings.

Another one today, f.chs, with Ariof a double in the first inning and also snagged three other lofts Jut in his territory. The other new Star, Mickey Heath, got one hit, his single starting the winning seventh-inning rally, and looked like \$1,00,000, or at least \$909,998.00 around first base. Another added feature to the afternoon's activities was Mister George (Buil) Magerkurth, Harry & Williams's basso profundo umpire. Magerkurth, who weighs about \$20 pounds in his stocking feet, which doesn't include the ten pounds of shoes, is the gent, if y u remember, who the American Association had to let go after he had put an insulting ball player in the hospital. All of which should let you know that Mister Magerkurth takes his insults seriously.

Magerkurth takes his insults seriously.

Anyhow, Magerkurth made quite a hit with the fans with his bass drum-like announcing of balls and strikes. In the ninth inning a foul tip from Frank Brazill's lat tore Magerkurth's mask right of his head, but the unspire's neck is not big for nothing and he didn't even take a back step. Ordinarily, a foul tip like that would tear an umpire's head off with the mask, but Magerkurth's head was put on to stick, evidently. When the fans gave him the customary cheer that goes with the hitting of umpires, Magerkurth turned around, bowed plassantly and tipped his hat, which would indicate that he also has a sense of humor.

Mescall and Martin Scores 71 to Tie for Medal in Golf Tourney at California THELD OF 419 ENTRANTS

Neville and Keller Finish One Stroke Back of Leaders; Match Play Today

SETS NEW COAST RECORD

Johnny Mescall and David Martin clipped one stroke from par with 71s yesterday, to tie for medal honors in the record field of 419 entrants who qualified in the annual invitational golf tournament of the California Country Club.

morning.

The record entry at California should certainly be construed as a golfing compliment to all club officials. Johnny Reid, newly elected president, is sponsoring a hospitality program that has never been succelled locally. W. O. Pryor, greens thairman, has the course in the best hape ever. A. H. Painter, tourney hanager, is handling things in great hape but was pained to learn of the nearly contestants who failed to hole outs in medal play. Just how Mr. vainter, starting players with one and and marking up scores with the ther, can still find time to discover layers not holing putts will never

er is very efficient and likewise conscientious.

Wilshire, Midwick and Los Angeles have been discussing the advisability of "limited invitationals" for several years, but Bel-Air will probably inaugurate the new form of tournament first. The proposed form of tournament is just what the name implies, limited to entrants who still consider self-respect more, valuable than a "better" golf score.

Speaking of scores, qualitying marks at Californis were the best ever. Entrants falling to make alloted brackets for match play will be sligible to play in a special eighteen-hole medal consolation round Friday. The added event will also be open to players defeated in first-round matches today.

Low scores yesterday, with pairings for first-round matches today, are as follows:

Miss Wills might be outguessed, but she steadied, and on tricky guessing and hard corner smarkes, went to 4-0, but only after terrific playing in each game. Deuces were called four times in the third game. Then Miss Sterry came back and grabbed three games in a terrific net and baseline battle, but she went wild, and Miss Wills, although far from leading the pace or playing accurately, got the last two.

It seemed evident that the cold weather following he rain, which interrupted the play, affected her game, but Miss Sterry, whose mother twice was a Wimbledon champion, played in championship form.

Senorita d'Alvares played raggedly and unimpressively against Miss Anterson, but won, 6-2, 6-3. Contrasting Miss Wills's difficulty, Mrs. Kitty McKane Godfree, her chief opponent for the finals, won cacily over Mrs. Trentham by 6-2, 6-2. Mills. Helen Contoslavos of Greece lost one game of each set to Miss Alexander.

Among the upsets were the defeats of Raymond, the South African fish, who was seeded among the first eight by Crole Rees, and Rene Iz Coste, who dropped the first set by 2-6, in his match with Jacobs. Francis Hunter conquered A. R. F. Ringscote handsomely, by 6-3, 6-3, 6-4.

Missouri Doctor Invents Unique Rupture Truss

Sends It on Trial-Without Money Down, No Cash Deposit, No C. O. D.

Kausas City, Mo., (Special)— Having invested a superior type of rupture appliance—with no leg straps, no clastic belt, no cruel straps, no elastic belt, no cruel spring bands, no hard gouging pads—an unusual offer to give it wider demonstration is now being made by the cruis Specialist, Dr. Andrew Kaiser, 181-B Koch Building, 2906 Main Street, Kansas City, Mor. He will send his appliance for 30 days' trial without a cent in advance, no cash deposit, no C. O. D. shipment. Hundred: of people, many with double rupture of long standing, have declared it brought them quick improvement and freedom from the hampering and discomfort previously suffered from truss wearing. If ruptured, and wanting quick relief and improvement, make this test. After the 28 days' trial if entirely pleased and ment, make this test. After the 20 days' trial if entirely pleased and satisfied, pay its small price and keep the appliance. Otherwise, simply return it and owe nothing. The advantage of this offer is all in your favor. Accept it by writing the Doctor today. The coupon below will do with plain writing or printing in pencil.

low-LOS ANGELES The following independent mer-

chants, who believe in quality MONARCH and service, sell and recommend Monarch Food Products:

QUALITY FOODS Yesterday and Today

THE year that saw the first gold from California deposited at the United States Mint, and the first telegraph line strung in California, also witnessed the introduction of Reid, Murdoch & Co. to mid-west lovers of good food.

Many of these same mid-westerners were soon paying the welcome price of enduring hardships on the Overland Trail so that they might reach the paradise on the coast. And the Pony Express riders, in their memorable 23-day run to St. Louis, passed many a camp fire, where toil and worries of the day were forgotten in the cheer bestowed by good coffee.

Long years have passed. The Pony Express and the covered wagon have given way to the "Iron Horse." Children, grandchildren, uncles, cousins, neighbors and friends of four generations have followed those hardy pioneers to California and as many more would if they could.

It will be welcome news to the children and grandchildren of Native Sons; their kith and kin, friends and neighbors, to know that the same coffee and fine foods that were the cherished possessions in the covered wagons, are just around the corner NOW-at your neighborhood grocery.

"Time tells the story." Monarch Foods have been the choice of discriminating buyers for three-quarters of a century for just one reason—unsurpassed goodness in every package and tin.

And Monarch Coffee, roasted and packed right here in Los Angeles, will add the same sense of well-being at your dinner table to-night as around the camp fires in '53.

Los Angeles Department Store Reported to Have New York Listing of Common Under Consideration

Los Angeles will send a department store listing to the New York martest if plans now under consideration reach maturity. It is understood
that Malcolm McNaghten, president of the Broadway Department Store
has been conferring with his investment bankers, Dillon, Read & Co., relative to the listing of Broadway Department common on the New York

Curb Market. The listing, it is further understood, will be made as soon

sestern States, while considerable improvement was reported in the condition of pastures in the Southeast and Southwest as a result of recent rains in that territory. Harvesting of the first cutting of alfalfa is in progress in the Yakima Valley, with the crop only about 75 per cent of normal as a result of the continued cool weather during the growing period. Demand in this territory was slackening somewhat and prices to growers of \$14 to \$15 per ton were slightly below previous quotations, The Sacramento market continued very active with tharp price advances in some sections. Unfavorable crop reports from adjoining States and further quarantine from Nevada gere strengthening factors in this market. The Los Angeles hay market was steady with increasing demand. Prospects for the coming crop in this area were good and the weather was reported ideal for harvesting. Considerable hay was arriving at this point by truck. Third cutting of alfalfa was in progress near Phoenix, Aria, with all hay of good quality moving readily and none going into storage. Most of the first and second cuttings have been disposed of except for small quantities of poor quality now in warehouses. The Yuma hay crop is being allowed to seed and very little is now being cut. Heavy shipping will not begin until November. National Debt Reduction Steady

time above the final price for the previous day.

One of the favorable developments was Globe Grain common, which sold up 1 1-3 points to 56 1-2 on a few sales. Richfield also was stronger, advancing 1-5 to 20 1-4 at the finish. Billion common dropped 1-8 to 24 3-4, while the 6 per cent preferred was climbing the same amount. California Petroleum figured in a number of transactions, but at lower prices. The stock closed at 23 3-2, off 1-4 from the previous day. Standard of California, also was softer, failing 1-2 to 53.

Among the mining shares Morrison Development was under pressure and dropped 1-2 cent to 1 1-2. The tape also showed activity in Gold Dust. United American and Great Bend. The last stock slipped off 6 cents to 58.

The only feature today in financial markets was the excitement in British Celanese shares, which at one time soared from 23 to 37 shillings on something approaching a cor-

ner.

It was balleved the people who recently bought for control overbought the market and the shares
were scarce for delivery. There was
little confirmation here or from the
United States of Morgan financing
for the American firm.

for the Continent, partly for French account.

Investment stocks held steadily, but the home rails and big industrials, including rails, were wer.

Oils and rubbers were quite, the latter rather better, however, on a firmer tome in commodity prices.

The markets are likely to drag on in featureless fashion until the half-year, when developments mainly will depend on the French franc situation and international politics.

All manufacturing activity is, however, centered in these new industries and the big key lines like coal, iron and steel are still unpleasantly dull.

dull.

The London Times has a leader this morning emphasizing the need for nationalization in the coal industry and urging the necessity of greater economy and efficiency.

Picture, If You Can,

A World Like This

CAN you imagine the dullness and dreariness of life if electricity and gas were suddenly taken from the world. Electric street cars would stop running instantly. There would be no "movies" or radio to enjoy in the evening; no telephones, cables, telegraphs or wireless; no electric elevators; no newspapers without electricity to run the presses. No electric or gas lights to read by, electric or gas stoves to cook with. And 1,001 other things would be taken from us. Because of the essential character of service, public utilities enjoy a remarkably stable income. But what does it mean to "YOU" personally?

It means that Southern California today is facing the dawn of a new era. The mighty wheels of industry will overshadow and belittle the fortunes made here in oil, gold and agriculture.

But most of all it means that opportunity is HERE—right in our own community. The sands of people are swarming here from all over the world to take advantage of the same situation. But "YOU" are right has the received. on the ground.

Crime Exaltant

In days agone, Conan Doyle, Prince of Dreamers, conjured up mythical beings, who, utilizing strange and unearthly influences. were able to trample down and fleece the less favored multitudes. In his wildest flights of whimsey, Doyle never believed his fancies would become realties.

A million people last Monday night sat down to get one man's views on how \$30,000,000 had been extracted from their members in a scheme so stinking with fraud that it reeks to Heaven.

These men, these master minds, whom Doyle dreamed of, but knew could never exist, decided that that million listeners should not be permitted to get those details. Those master minds had robbed the public of a fabulous fortune and they were going to make that public like it.

No sooner had the speaker started than the air was prostituted with weird waves of static that drowned out every condemning syllable. The criminals, utilizing super intelligence, but cowering in some secret hideout, succeeded in blocking the flood of damning accusations.

God knows, I hold no brief for the speaker of that evening and likewise I am under no obligations to any financial interests, straight or questionable, in this community, so my expressions are entirely unbiased. They do, however, I am certain, represent the feelings of tens of thousands of hoodwinked investors and likewise reflect the opinion of all lovers of clean sportsmanship and fair dealing.

The contemptible attack of Monday night on public liberty was unprecedented in the history of the world. The air about us has never had an owner, but on that eventful night the God given waves that carry knowledge, music and entertainment around the world passed into the sole possession of financial Nihilists, with whom murder might be expected to follow as a pleasant pastime. Carried to its logical conclusion these men could and would everlastingly throttle all who protest their fiendish code and their despicable methods.

To let the rape pass unchallenged would be to admit the supremacy of crime and lead to the shattering of rights that mankind has fought thousands of years to obtain. The brazen affrontery, the audacious impudence of that exhibition has never been equalled.

Crime slapped the faces of a million people last Monday night and sneered as they cringed.

BURGLAR ALARM 'SEES' INTRUDER

Network of Light Beams to

In loving memory of our beloved daugh sister. Hester E. Kent, who passed av 22, 1928. MRS. G. M. PRAZER AND FAMILY. Fire Warning

By a "Times" Staff Correspondent PASADENA, June 21.—A remark-PASADENA, June 21.—A remark-ably ingenious and apparently 100 per cent effective burglar-alarm sys-tem, which almost literally sees the thief in the night, has been in-vented after five years of work by Dr. Robert C. Burt, research fellow

builb, which Dr. Burt has perfected, form a cage to trap the wariest footpad. The same device also does double duty as a fire alarm.

The Burt photo-electric cell is the chief feature of the device and this builb is also already being used in many other ways. It is important in trievision, talking motion pictures, for use in sorting articles by color automatically, for timing races and recording the strength of sunlight, to name only a few of its various uses.

been devised before, but this one has unique properties and the burgiar alarm which Dr. Burt has invented is the first of its kind.

The merhanism, including the photo-electric cell, is housed in a hox resembling an ordinary radio set container. At some point in the room it protects is placed an ordinary flashlight which directs its rays at a mirror, which in turn, reflects them into other mirrors placed at various points about the room, until the beam is finally directed into a small hole in the end of the adorementioned box.

There it falls on the photo-electric of the aforementioned box.

There it falls on the photo-electricell. As long as the beam of light strikes the cell, the cell registers a strikes the cell, the cell registers an electhic current on an indicator. But the inoment the beam of light is broken even for a fraction of a second, the current stops and the indicator falls, ringing a bell. This bell rings continuously until it is disconnected by a method known only to the owner.

Thus the moment a hypothetical burglar enters a room so protected he must cross one of the beams of light and start the bell ringing. The instrument is so delicate that even instrument is so delicate that ever a puff of smoke crossing the bean will sound the alarm, as Dr. Bur will sound the alarm, as Dr. Burt demonstrated today.
Dr. Burt, who lives at 337 North Michigan avenue, has been at the California Institute five years, working on photo-electric problems. He was formerly of Cornell University.
An interesting feature of the cell, which resembles an ordinary electric light bulk, except that it is chemically treated, is that the acquium which coats its inner surface is applied through the glass by electrolysis after a very high vacuum has been created within the bulb.

QUEER ISSUES UP TO TAX BOARD

How Much Films Depreciate and Way Husbands and Wives Legally May Split Up Partnership Proceeds Must Be Decided by Group

How much a motion-picture film depreciates and how husbands and wives may split up receipts from a partnership are questions that will come up before S. L. Trussell, member of the United States Board of Tax Appeals, in hearings he has just begun in Los Angeles.

The National Film Corporation of America has appealed to the board to set saide the United

board to set aside the United States Internal Revenue Depart-ment's assessing of \$100,800 of in-come and profits taxes against it. Arthur H. Fast, chief of special attorneys here for the depart-ment, said the department ar-rived at the asserted deficiency in taxes paid by the corporation be-cause of a difference between the

way it and the corporation look at film depreciation.

In the partnership case, Fast said, the departnersh asserts a tax payment deficiency of \$334.

500 against Elihu Clement Wilson, 600 against Elihu Clement Wilson George B. Wilson and Wilson & Wilson, of the Wilson & Wilson, of the Wilson & Wilson Manufacturing Company. Fast said the three split up receipts among themselves and wives and paid taxes on that basis. The department contends, he said, that legally no such split-up could be effected under the circumstances and that payment of income and surtax on a proper basis would require \$384,000 more taxes than was paid by the six in 1919 and 1920.

No decision will be made here, the board member being in the

The convicted man was charged with representing to the women that he was the owner of a mine in Riverside county, an ocean-going steamer, and that he had also made a first payment on a yacht. All of his representations were asserted to have been alsely made for the purpose of inducing Mrs. Mills and Mrs. Lewis to "loan" him their savings.

Attorneys for Stringer filed notice of appeal from the sentence.

AFTER YEAR TRIO'S TRIAL IN CHURCH Mysterious Disappearance FIGHT SET of Oriental Jewels and

So-Called Prophetess and Companions to Face Jury on Murder Plot Charge

Two mysterious burglaries of treasures of the Orient were reyealed by the police yesterday. The reports of the burglaries, which total \$20,000, had been kept under cover by the department for more than a year.

The burglaries occurred at the home of Mrs. H. V. Winchell, 258 South Oxford avenue, the first on May 5, 1928, the second on June 17. of the same year.

The articles taken had been collected by Mrs. Winchell's husband, a world traveler. Most of the articles came from the Orient. The greater part of the plunder consisted of Chinese and Japanese jewelry, including a rich collection of jade. The most valuable piece of jewelry, it was said, was a yellow gold ring with a three-carat sapphire surrounded by four and one-half-carat diamonds.

Japanese silks, Russian shawls and Belgian laces also were taken.

The investigation is being conducted by Capt. Kallmayer of Wilshire station.

THE PARDON OF MISS WHITNEY
Whatever the public reaction to Gov.
Young's pardon of Charlotte Anita Whitney, convicted of violation of the California criminal syndicalism law, the action affects neither the status of the law itself guilty of its breach by a court of compe tent jurisdiction, a verdict subsequently up held by every higher tribunal to which the

with a with the first

case was submitted.

Miss Whitney has not been absolved of her offense; she has merely been forgiven it. Her pardon rests not upon any logical, legal basis, but upon Gov. Young's some-what remarkable opinion that it is "unthinkable" that, at 60 years of age. Miss Whitney should be sent to prison for the one-to-fourteen-year sentence legally provided for the offense of which she was found guilty.

Aside from the—to Gov. Young—weighty political considerations involved, of which his pardon announcement says nothing, the Governor took into account the age of the defendant, her sex and her undoubted good works in other fields than that which brought her into conflict with the law. All these are eminently proper factors for asideration in connection with a pardon but they have nothing to do with the ac tual merits of the case.

The major contention of Miss Whitney and her champions, whereby they sought to justify her illegal acts, was that the criminal syndicalism law was unconstitutional. That contention they carried to the United States Supreme Court. The decimal of the matter is higher technique. sion of the nation's highest tribunal sustained the law on every point raised. It affirmed the right of California to enact legislation prohibiting membership in or-ganizations preaching the anarchistic and subversive doctrines of the criminal syndicalist and to try by due process of law the violators of such legislation, as Miss

Whitney was tried and convicted.

In view of the Supreme Court's sweeping decision, the contention of Gov. Young that Miss Whitney is not guilty because that Miss Whitney is not guilty because she did not herself openly advocate anarchy and sabotage is a little weak. As a matter of fact, the I.W.W. movement in California owes much of its sinister menace to the support and encouragement lent it by the membership of such "parior pinks" as Miss Whitney. That she was herself not entirely passive in her support of the I.W.W. activities is recalled by the circumstances of her arrest. She was taken into stances of her arrest. She was taken into custody after she had defied the Oakland police authorities and made a speech in

Beaten at every point of their appeal to law and logic, the defenders of Miss Whitney had final resort to an appeal to sentiment and chivalry—one to which deaf ears are seldom turned. Thousands have condoned Miss Whitney's acts, not because they approved of them, but because they they approved of them, but because they made allowances for a woman, even in an age when sex equality is held to be well established and because of her work in behalf of unfortunates in other directions.

The people of California, chivalrous always and generous to a fault, will not be apt to criticise too severely the act of Gov. Young, based, as he frankly admits, more on sentiment than cold logic. But they will sentiment than cold logic. But they will

A GAINST NAVAL COMPETITION

A America has presented to the Geneva arms conference a plan which, if adopted, would eliminate all naval competition among three great nations of the world. This plan was presented by United States Minister Hugh Gibson along with a message from President Coolidge in which, after expressing his gratification over the assembly of the delegates from Britain, the President said:

DULLING TOGETHEA

To overcome a prejudice is to win a victory. When the prejudice is of long at victory. When the prejudice is of long as a victory. When the prejudice is of long as a victory. When the prejudice is to win a price of the sanding and rooted in mutual distrust the feat is even more noteworthy. Such a barrier, unfortunately, has existed for many years between the farmer and the industrialist. It has been not so much a matter of actual fact as of imagined grievance. Further, it has been fostered by certain elements intent on advancing their own interests at the expense of both others. assembly of the delegates from Britain,

THE AVERAGE MAN By James J. Montague The average man is found by science to be dull, prejudiced, superstitious, greedy

The average man is lazy, He works by fits and starts,

He spurns the pathways leading Ambition's arduous way,
He has no taste for reading—
He's fond of vain display,
He's filled with superstition,
He loves to rave and rant Of other people's cant.

He has small education, He is a sullen lout
Whose triffing occupation
Is all he cares about.
And yet he's disputatious—
He thinks he's always right— He thinks he's alway And ugly and pugnacio And spoiling for a fight.

The average man is wholly Concentered in himself, His thoughts are always solely On sports or dames or pelf. He's mean and low and hateful, He lacks real pep and vim, Let's you and I be grateful That we are not like him. [Copyright, 1927, by the Bell Syndicate, Inc.]

In my early experiences in America, as an immigrant lad trying to find my niche, I was robbed of my belief in Diety. I was lonesome, heartsick and homesick enough with a faith in God, but the heartsche, the helplessness and the despondency that gripped me with atheism cannot be put in words.

on, George Cunningham and his partner, Evelyn Nair, and the

dance partner. Evelyn Nair, and the entire chorus of the musical-comedy, "Peggy-Ann," now playing at Maclicon's Hoilywood Music Box, will appear in person at the gala reopening of the Cinderella Roof Baliroom tonight as the guests of Manager George McCarthy.

Cunningham and Miss Nair will introduce the vastly popular new ballroom dance. Havana, direct from New York, at the Cinderella tonight. This dance is the latest evolution of the Elack Bottom. The dance is considered ne of the hits in "Peggy-Ann."

The reopening of the Cinderella Roof tonight with the introduction of Santry's Kit Kat Club orchestra, will "go down in the history of Los Angeles" gala events," according to George McCarthy. With many film stars, composers and stage artists adding to the galety of the affair, and the "Peggy-Ann" chorus dancing in formation. Santry and his orchestra will be given one of the greatest welcomes since it opened at the Kit Kat Club in London several seasons ago.

"CALIGARI" HITS WEIRD NOTE

Rarely has a motion-picture production, foreign or domestic, created so great a stir as "The Cabinet of Dr Caligari," the imported German film which Louis O. Macloon is to present at the Orange Grove starting Thursday through an arrangement with Walter W. Kofeldt.

Using as its theme the story of Dr. Caligari, who traveled among the rillages of Italy with a somnambulist over whom he had a sinister control, the intense atmosphere and sustained the intense atmosphere and sustained the control.

Santrey Will Have Different Program Sunday

In vaudeville it is considered something of a feat for a single act to change all of its material when it is held over for a second week and well nigh impossible for a big act to do it. However, Henry Santrey has made his way to the top of the amusement ladder by his originality, and the announcement that he will offer an entirely new act for his second week at the Orpheum, starting Sunday, although unusual, is typical of his constant effort to present entertainment with variations.

Bantrey will present a number of new features which he originated during his stay in Australia and will be assisted in their presentation by Harry and Anna Seymour.

Florence Moore will headline the new bill. Miss Moore was the star of such stage successes as "Parior, Bedroom and Bath." "She Couldn't Say No," "Greenwich Village Polilies" and Irving Berlin's "Music Box Revue' She brings new song numbers and comedy offerlings from the pen of Neville Flysson, and Lieut. Oitz-Rice assists her at the plane.

Chicago Run Is Terminated for Tour of West

Los Angeles is now viewing "The Shanghai Gesture." in which Florence Reed is starring, before that production goes to Boston, Philadelphia, Washington and other eastern cities. The insistent demands of the West Coast Theater Managers' Association induced A. H. Woods, producer of this dramatic success, to halt temporarily the Chicago run so that the original New York company could play the present engagement here.

The tour of the West, however, will be brief, and terminates in Los Angeles. At the conclusion of the California engagement, the company will resume in Chicago and then return to the East for production there.

BAKERSPIELD, June 21.—Arrests in Kern county's glaring-headlight war were raised to 160 today when fort, drivers were stopped by county traffic police and handed arrest tags on charges of having violated the State auto light laws.

Seventy-five per cent of the automobile owners arrested in two days of headlight raiding have had their lights adjusted to meet the standards set b' law, according to the traffic bureau. Autoists arrested on headlight law violation charges are given forty-eight hours to have their lights edjusted. If they fail to report in that time they are dealt with as regular traffic law violators and cited to appear in court. In addition to light raids the traffic department is continuing its drive against speeders and reckless drivers. Seryt, Galin reports.
